

PUK 2

TECHNICAL DATA:

- o Device suitable for welding in dry rooms.
- o Mains voltage ~230 V / 50-60 Hz +/-15%
- o Mains fuse T2,5 A
- o Power input 500VA
- o Operating voltage 20-38 V
- o Open circuit voltage 38V
- o Max. loading time 1,7 seconds
- o Protective gas min. Argon 99.9 % (ARGON 4.6)
- o max. gas pressure 10 bar
- o Protection class I
- o Insulation category B
- o Protection type IP20
- o Weight 6,8 kg
