

The Precisionmaxx

LAMPERT.
PRECISION WELDING

Precision welding in any place.
At any time.

Mobile welding with our precision welding devices has never been so easy. With the new **Precisionmaxx welding protection helmet** providing perfect eye protection in any situation. Developed for the Micro Arc Welder together with the Swiss experts from Optrel.

FEATURES

- **Wireless pairing** with the Micro Arc Welder via Bluetooth®
- **Optimal darkening** before every single electric arc with signal-controlled shutter
- **Magnification up to 1,68x** with easy replacement of inner screen (optionally)
- **Ready to use for conventional TIG welders** by switching to sensor automatic mode

DESIGN

- **Innovative sleek shape** with robust and high-quality materials
- **Large field of vision** from shutter with nose cutout close to your eyes
- **No shutter fog-up** – clear separation of visual section and breathing section
- **Perfect accuracy of fit** with Optrel IsoFit® Headgear

COMPATIBILITY

- **Developed for the Lampert welding units** of the Micro Arc Welder series
- **Plug & play** ready by connecting the USB dongle
- **Compatible** with Optrel e3000X and SwissAir blower respiratory protection systems
